

VEHICLE TRACKING

Track Your Truck

Fleet Management Solution

Track and monitor your trucks and vehicles any time any where. Know where your drivers are going and how they are driving. Monitor the vehicle or truck's speed and fuel levels in real time. Locate their exact positions on the interfaced Google Map through your mobile phone or on a standard computer with Internet connection. Set ge-fencing or restrict your drivers from driving into certain areas. Remotely disable the truck or vehicle incase of theft or misuse. Get instant alert text messages on your mobile phone if a policy is breached by your driver or in case of accidents. Get monthly reports from the system and maintain your fleet up to safety standards, and prevent vehicle misuse, abuse, fuel theft, and save money. No monthly fees. You manage your own fleet.

NO MONTHLY FEES!
